Breach of Neutrality.

We allowed the other day to a trial then in pro-gress in the United States Court at Philadelphia on which trial testimony was given, showing con clusively that the British Minister, Mr. Crampton, was directly engaged in getting up in this country a 'Poreign Legion' to serve in the Crimean war. The Philadelphia Bulletin of the 27th, in speaking of the trial says that Heriz, one of the defend anis, was found guilty, and remarks:

anis, was found guilty, and remarks:

If Mr. Hertz is guilty, as the jury has decided, he is only fuilty as the jury has decided, he is only fuilty as the jury heart of the Buttsh Government, and the latter, we conceive, is in duty bound to assume the responsibility of the acts they coquived at, if they did not directly authorize, and not allow the penalty to fall upon their mere creature. We think that Mr. Hertz would be justified in making an expose of the whole natter, but that he owes it to himself to hung to light the parties who instigated the offence lays which he is made so suffer. for which he is made so suffer.

SIZE OF THE RUSSIAN BLEET DESTROYED AT SERAS Toron. According to the Courrier des Etats Unis the Russian flag counted at Sebastopol, in the month of September, 1854, seventeen ships, 5 of 120 guns, the remainder of 84 guns; four frigates of sixty guns; four corvettes or brigs; twelve steam ships, and eighty two ships of interior, tank; in all 108 ships, carrying 2,200 guns. This colossal armament was destroyed by the Russians them-selves, to prevent it from falling into the hands of

DECREASE OF POPULATION. -- Some facts are pub Ished which seem to indicate that the States of Ohio, Indiana, and Illinois have not increased in all quarters. Thus the Methodist Conference recently held at Sandusky, Ohio, shows in its statistics a decrease of 355 members of the Church in the bonds of that Conference, 510 probationers, and 4 local preachers, and the decrease is attributed to the emigration constantly going on to Iowa, and the new territories. A census of Peru, Illinois, Just taken, also shows a decrease of 250 in the population of that town in the last two years.

For the Intelligencer. MESSES. Entrons : Please give place in your columns to the enclosed, or at least such portion of it as does justice to the character, and reprobates the wrong of an officer, the greater part of whose life has been devoted to his country, and who is now sent with others of the gallant band

to which he belonged, to "Beg bitter bread, thro realms their valor saved," -while the public lands are squandered on railroa-bapeculators, the public revenue made sub er vientto party ends; and public ships, and public treasure employed to import foreign incendiaries to our shores, that they may be feasted at public expense, and enabled by private subscription to foment discord, already too rife in our national constitution. But commander Nicholas was only a Virginian, and what is this to Northern consideration or sympathy; only son to her former distinguished Governor; only a connexion of her Jeffersons, her Ran-dolphs, her Carrs, and such other worthies as have passed to the grave. (where they may blush, but cannot resent) in fact, and to old foggism in appreciation; has only been forty years in the serice; only, as this letter announces, Leen useful but responsible situation, as tells on private interest, but which promotes no political purpose, and may therefore be "dropped" with impunity, that the tosdies about the Capitol may be advanced, and new recruits be added to the cohorts of the successor of Washington; the present distinguished chief of a grateful Republic. ived a wound or not.

We have received the following indignant letter in relation to Commander John S. Nicholas, who has been placed on the furlough list; STV I Program spiros or the fire to

paner, on seeing plinted in full the name of Commander Nicholas, as having been retired from the navy-put out of it in the most degraded position that could possibly be given him; that is, has been furloughed on a bare subsistence, less than the earnings of a laborer. Now, gentlemen, this is news to us upon the Lakes—news which we Lake people do not undarstand, and are not disposed to submit. We have votes at the West as well as you of the East, and we will make our votes tell on naval affairs in such a way as will

Commander Nicholos has been known to us upon the Lakes for the last eighteen months, as commander of the United States steamer Michigan, and he has during that time performed more valu-able services to our lake commerce than have been rendered by the ship during the entire nine been rendered by the ship during the entire nine years previous. His services have been acknowlinded from time to time, over and again. There is no hierchant, no shipowner, no shipmaster, but will re-echo my assethons; and I call on all publishers throughout the West and Lake country to promulgate this: That Captain Nicholas, whose truly valuable services have been at all times so freely tendeted us, has been removed from the nawy—cause not known. Shame, shame, shame, we say to the government and its inquisitorial Star Chamber, that although they may not value.

Star Chamber, that although they may not value the services of Capt. Nicholas, we do, and will see that he is taken care of. In the coldest winds, the most violent storms, the most desperate crumstances, he has not he stated where duty or humanity called him; and through his gallant efforts year amounts of property and many lives have been saved.

Let us ask, how sloud the crumstances. the services of Capt. Nicholas, we do, and will

Let us ask, how stood the navy before Capt. Nicholas appeared among us? Why, sir, naval officers were regarded as gilded ornaments (?) of the ball room-of no earthly use. The services

of the Michigan were asthing. Copiain Nicholas has taised the navy to the highest standard; his efforts have redounded to the credit of the navy; he has cleared it from the name of reproach, and is now rewarded by his country by being set aside. There is no man among us who will not aside. There is no man among us who will not regret the less to the navy of such an officer. Ask the insarance companies—ask the shipowners—ask General Reid what has been done. Why, in this present year \$400,000 of property have been saved, and now the man who has been unremitting in his exertions in our behalf has been arterned, while other gentlemen of the navy have been champagning in Washington or dancing at the watering places. Is it right?—is it honest? We of the lakes cannot, understand these naval chicaneries, and one and all, do most heartily condemn such proceedings, nor can we believe that such acts of despetism will be sustained by Congress.

A Marverlous Story.—The reader must decide for himself how much he will believe of the following account of a Marvellous discovery' related in the Cork Reporter:

We have been informed, but what exact amount

RUSSIAN PANIC.

It appears that not less than 1,200 guns of large calibre have been found by the allies at Sebastopol. It is thought that the Russians will have made an attempt to redeem their defeat by again attacking us, and it is rumored to-day that the government was in expectation of the news of a great battle. During the assault the Russian artillerymen were killed at their guns, but it is affirmed that with that exception a punic took complete possession of the army at the appearance of the allies in the Marakoff. Their hasty retreat was occasioned by the lear that we should fire on the bridge and take them prisoners.

Paris, Thursday Evening.—At about ten o'clock last night another lelegraphic dispataldh from the Orimea was posted in the streets, from which, so far from Sebastopol being but a heap of blood statued runsy' as prince Gortachakoff represented it, it seems that the quantity of stores which his refreat has left in our hands will require several days—perhaps weeks to compute. The precipi-tate flight of the enemy did not enable him to com-plete the work of destruction, and thus the Russian commander will have, in a manner, surplied the allies not only with creature comfort set uside for use this winter—and the want of w will be sorely felt by, his army when expose the keen blasts that sweep the plateaux of rimea-but also with ammunition, artiller warlike stores - in fact, with arms to use ag linself.

It will have been remarked that one of General Pellissier's dispatches, while stating that Prince Gortschakoff had asked for an armistice to bury his dead left behind near Fort St. Paul, does not say whether or not he had acceded to the request.
